At a glance

IBM® Lotus Notes® and Lotus® Domino® 8.5.1 includes many features and enhancements that improve the usability of the solutions for both the end user (Lotus Notes, Lotus iNotes™, and Lotus Notes Traveler) and developers (Domino Designer).

- Lowers the barrier to collaborative business applications
- Build once for universal client access to collaborative applications
- Makes Notes® your productivity dashboard using out-of-the-box integration of your existing IBM Lotus (Sametime®, Quickr™, Protector), third-party and partner assets
- Increased turn-key solutions and developer resources to help maximize your return on investment

To order, contact your IBM representative, an IBM Business Partner, or the Americas Call Centers at 800-IBM-CALL.

Lotus Domino Messaging Client Access License: YE001
Lotus Domino Messaging/Collaboration Express: YE001

Overview

IBM Lotus Notes and Domino 8.5.1 now includes many new features and enhancements.

The first major change expands on options for building or expanding on Domino applications. Domino Designer will now be freely accessible in IBM developerWorks® for no charge. This expansion in access brings Domino's RAD tool to a broader community of developers aimed at increasing the solutions that are available for the Domino platform.

The second major change for this release is a repackaging of Domino client solutions in order to simplify the purchasing options to better align with how people work vs. what they need to complete their work. The Domino client options are delivered as a client access license (CAL), where access to the Domino platform is put into two categories: Enterprise CAL and Messaging CAL.

- The Enterprise CAL unleashes the full value of Domino for accessing Domino applications through any of the clients for desktop (IBM Lotus Notes), Web (IBM Lotus iNotes), and mobile (IBM Lotus Notes Traveler). Any of the clients can be used to access the multitude of applications developed in house via IBM Lotus Domino Designer or by independent software vendors (ISVs). In addition, Enterprise CAL includes Domino Designer, where the right to publish applications built within Designer to a Domino server is included. This CAL also includes entitlement to IBM Lotus Quickr Entry, IBM Lotus Sametime Entry, IBM Lotus Symphony and IBM Lotus Mobile Connect clients (where an additional server purchase is required to deploy a VPN solution that supports all access points via either client-less or client-based VPN connections).
- The Messaging CAL is a limited use option that also provides access for the clients Lotus Notes, Lotus iNotes, and Lotus Notes Traveler, but limits the access to messaging, calendar and scheduling, personal information management (local address book and personal journal), blogging, discussion databases and reference databases. This CAL also includes entitlements to Lotus Quickr Entry, Lotus Sametime Entry, and Lotus Symphony.

The third major change for this release includes a vast array of features for accessing data across the form factors (desktop, mobile and Web). This release includes many features and enhancements that improve the usability of the solutions for both the end user (Lotus Notes, Lotus iNotes, and Lotus Notes Traveler) and developers (Domino Designer).

- Lowers the barrier to collaborative business applications
 - Expands the Notes and Domino developer ecosystem through no charge developer tools
 - Leverages industry-standard Web development skills and utilizes existing Notes and Domino skills
- Build once for universal client access to collaborative applications
 - Harness the power of Web 2.0 from both browser or Lotus Notes client for both online and offline productivity
 - Accelerate your time-to-business value using a visual and iterative development style
- Make Notes your productivity dashboard using out-of-the-box integration of your existing, IBM Lotus (Sametime, Quickr, Protector), third party, and partner assets
 - Ready-to-use components for Notes apps, Web apps, Host on Demand apps, and native third-party apps
 - Automate business processes on the client side in less time
- Increased turn-key solutions and developer resources to help maximize your return on investment
 - "There's a widget for that!" - New Lotus online catalog creates a marketplace for BPs to showcase solutions to customers.
 - Revitalized OpenNTF provides collaborative community for open source development and reusable assets.

Key prerequisites

Refer to the [Hardware requirements](#) and [Software requirements](#) sections for details.

Planned availability date

October 12, 2009: Electronic software delivery

For additional information, refer to

<http://www-01.ibm.com/support/docview.wss?rs=475&uid=swg21388762>

Physical media and documentation:

- November, 20 2009: English
- December 11, 2009: Catalan, Chinese-Traditional and Simplified, French, German, Japanese, Korean, Italian, Portuguese-Brazilian, Spanish, Danish, Swedish, Norwegian, Dutch, Finnish
- February 12, 2010: Arabic, Czech, Greek, Hebrew, Hungarian, Polish, Portuguese, Russian, Slovenian, Slovakian, Turkish, Thai

Description

Updates to the following features

Lotus Notes:

- Expanded Quickr integration
- Introduces Protector integration
- More tools to increase productivity through innovations in usability
- Increased extensibility through XPages and widgets

Lotus Notes Traveler

- Introduces enhanced security features for Nokia S60 devices
- Adds Apple iPhone support

Lotus iNotes

- Auto refresh and inbox unread count
- Expanded Quickr features
- Additional policy support
- Introduces greater calendaring and scheduling features including new support for Sametime Unyte

Domino Designer

- XPages are supported in the Notes client.
- XPage performance and scalability enhancements.
- XPage active content filtering.
- Dojo updated to 1.3.2.
- Improved ability to use Dojo in XPages.
- Designer performance enhancements.
- New LotusScript® and Java™ editors.
- Working sets usability enhancements.
- Domino Designer extensibility APIs.
- New design element for building iWidgets.
- Composite application enhancements for Notes and Symphony applications.
- Composite application support for XPages.
- Provide Java APIs for Notes User Interface classes.

Lotus Enterprise Integrator

- Windows® 2008 - 32 bit and 64 bit
- ODBC 5.3.2 (Open Database Connectivity)
 - Includes fixpack from Data Direct for better integration with MySQL 5.1

Accessibility by people with disabilities

A US Section 508 Voluntary Product Accessibility Template (VPAT) can be requested via the IBM Web site

http://www.ibm.com/able/product_accessibility/index.html

Section 508 of the U.S. Rehabilitation Act

IBM makes no representation about the Section 508 status of the third party electronic and information technology product in this offering. Contact the vendor for specific, current information on the Section 508 status of this product.

Education support

IBM training provides education to support many IBM offerings. Descriptions of courses for IT professionals and managers are on the IBM training Web site

<http://www.ibm.com/services/learning/>

Call IBM training at 800-IBM-TEACH (426-8322) for catalogs, schedules, and enrollments.

IBM Software Services for Lotus Education provides education to support many Lotus offerings. For a complete list of offerings visit the Web site at

<http://www.ibm.com/software/lotus/training>

Offering Information

Product information is available via the Offering Information Web site

<http://www.ibm.com/common/ssi>

Also, visit the Passport Advantage® Web site

<http://www.ibm.com/software/passportadvantage>

Publications

No publications are shipped with these products.

The IBM Publications Center

<http://www.ibm.com/shop/publications/order>

The Publications Center is a worldwide central repository for IBM product publications and marketing material with a catalog of 70,000 items. Extensive search facilities are provided. Payment options for orders are via credit card (in the U.S.) or customer number for 20 countries. A large number of publications are available online in various file formats, and they can all be downloaded by all countries.

Technical information

Specified operating environment

Hardware requirements

IBM Lotus Notes and Domino

Notes 8.5.1 - Detailed system requirements

Notes Client (standard configuration)

Microsoft® Windows

- Supported versions
 - Microsoft Windows XP Professional, Service Pack 3
 - Microsoft Windows XP for Tablet PC
 - Microsoft Windows Vista: Enterprise, Ultimate, and Business Editions
 - Microsoft Windows Vista for Tablet PC
- Processors
 - Intel® Pentium®, or higher and compatibles, or equivalents
 - Windows XP - Pentium 4, 1.2 GHz, or higher
 - Windows Vista - Pentium 4, 1.2 GHz, or higher
- RAM
 - Windows XP - 512 MB minimum; 1 GB, or more strongly recommended
 - Windows Vista - 1 GB minimum; 1.5 GB, or more strongly recommended
- Disk space
 - Install directory (C:\) - 900 MB, or more recommended
- Video
 - Hardware support for OpenGL
- Monitor
 - Color monitor required
 - 1024x768 screen resolution minimum
- Protocols
 - NetBIOS over IP (only Microsoft TCP/IP is supported)
 - NetBIOS over IPX (Both Novell NetBIOS and Microsoft NetBIOS over IPX are supported.)

- TCP/IP (includes IPv6)

Linux®

- Supported versions
 - SUSE Linux Enterprise Desktop (SLED) 10 XGL.
 - Red Hat Enterprise Linux (RHEL) 5.2 Desktop.
 - **Note:** AIGLX is not supported, and must be disabled.
 - Ubuntu 8.04 LTS Desktop Edition.
- Processors
 - Intel Pentium, or higher and compatibles, or equivalents
 - Intel Pentium 4, 1.2 GHz, or higher
- RAM
 - 512 MB minimum
 - 1 GB, or more strongly recommended
- Disk space
 - Install directory (/opt) - 1.5 GB minimum
- Video
 - 128 MB video RAM (with XGL-compatible video driver from hardware OEM for SLED 10)
 - /etc/X11/xgl-hardware-list
- Monitors
 - Color monitor required
 - 1024x768 screen resolution minimum
- Protocols
 - TCP/IP (includes IPv6)

Macintosh

- Supported versions
 - Macintosh OS 10.5.x
- Processors
 - Intel only
- RAM
 - 1 GB minimum
- Disk space
 - Install directory (/Applications) - 2 GB, or more recommended
- Video
 - 32 MB video RAM, or more recommended
- Monitors
 - Color monitor required, 256 colors, or greater
 - 1024x768 screen resolution minimum
- Protocols
 - TCP/IP (includes IPv6)

Notes client (basic configuration)

Microsoft Windows

- Supported versions
 - Microsoft Windows XP Professional, Service Pack 3
 - Microsoft Windows XP for Tablet PC
 - Microsoft Windows Vista: Enterprise, Ultimate, and Business Editions
 - Microsoft Windows Vista for Tablet PC
- Processors
 - Intel Pentium or higher and compatibles, or equivalents
 - Windows XP - Pentium 4, 1.2 GHz, or higher
 - Windows Vista - Pentium 4, 1.2 GHz, or higher
- RAM
 - Windows XP - 512 MB minimum; 1 GB, or more strongly recommended
 - Windows Vista - 1 GB minimum; 1.5 GB, or more strongly recommended
- Disk space
 - Install directory (C:\) - 900 MB, or more recommended
- Video
 - Hardware support for OpenGL
- Monitors
 - Color monitor required
 - 1024x768 screen resolution minimum
- Protocols
 - NetBIOS over IP (only Microsoft TCP/IP is supported)
 - NetBIOS over IPX (Both Novell NetBIOS and Microsoft NetBIOS over IPX are supported.)
- TCP/IP (includes IPv6)
 - X.PC

Macintosh

- Supported versions
 - Macintosh OS 10.5.x
- Processors
 - Intel, PPC
- RAM
 - 512 MB minimum
 - 1 GB, or more strongly recommended
- Disk space
 - Install directory (/Applications) - 1 GB, or more recommended
- Video
 - 32 MB video RAM, or more recommended
- Monitors
 - Color monitor required, 256 colors, or greater
 - 1024x768 screen resolution minimum

- Protocols
 - TCP/IP (includes IPv6)

Citrix support statement - The Notes client is supported on Citrix Presentation Server 4.5, on Windows 2003 server (32 bit and 64 bit), using Citrix ICA (Independent Computing Architecture) clients.

Domino Administrator client, Domino Designer

Microsoft Windows

- Supported versions
 - Microsoft Windows XP Professional, Service Pack 3
 - Microsoft Windows Vista; Enterprise, Ultimate, and Business Editions
- Processors
 - Intel Pentium, or higher and compatibles, or equivalents
 - 1.5 GHz, or higher recommended
- RAM
 - Windows XP - 512 MB minimum; 1 GB, or more strongly recommended
 - Windows Vista - 1 GB minimum; 1.5 GB, or more strongly recommended
- Disk space
 - Install directory (C:\) - 960 MB, or more recommended
- Video
 - Hardware support for OpenGL
- Monitors
 - Color monitor required
- Protocols
 - NetBIOS over IP (Only Microsoft TCP/IP is supported.)
 - NetBIOS over IPX (Both Novell NetBIOS and Microsoft NetBIOS over IPX are supported.)
 - TCP/IP (includes IPv6)

Lotus iNotes 8.5.1 - Detailed system requirements

Client hardware requirements

- Recommended for better performance
 - Windows - Pentium 4, 2.0 GHz with 512 MB of memory
 - Linux - Pentium 4, 2.0 GHz with 512 MB of memory
 - Macintosh - Intel 2.0 GHz with 512 MB of memory
- Minimum requirements
 - Windows - Pentium 3, 1 GHz with 256 MB of memory
 - Linux - Pentium 3, 1 GHz with 256 MB of memory
 - Macintosh - G4 1 GHz 256 MB of memory

Client operating systems and supported browsers

IBM Lotus iNotes runs on the following client operating systems:

- Microsoft Windows XP Professional and Microsoft Windows Vista Enterprise Edition using the following browsers:
 - Internet Explorer 6 and 7

- Mozilla Firefox 2.0.0.13, or later
- Novell SUSE Linux Enterprise Desktop (SLED) 10 using the following browsers:
 - Mozilla Firefox 2.0.0.13, or later
- RedHat Enterprise Linux (RHEL) Desktop 5.2 using the following browsers:
 - Mozilla Firefox 2.0, or later
- Macintosh OS X 10.5 using the following browsers:
 - Mozilla Firefox 2.0.0.13 - Note: Does not support Domino Off-Line Services (DOLS), local archiving, and Lotus Sametime awareness.
 - Safari 3.1.x - Note: Does not support Domino Off-Line Services (DOLS), local archiving, and Lotus Sametime awareness.

Apple iPhone and iPod Touch firmware version 1.1.4 (for the Ultralite mode)

Citrix Presentation Server 4.5 on Windows 2003

- The Notes Client is supported on Citrix Presentation Server 4.5, on Windows 2003 server, using Independent Computing Architecture (ICA) clients. For additional information, refer to the "Citrix support statement" release note.

Browser support notes

- Attempting to access Domino Web Access through unsupported browsers results in the display of an unsupported browser notice. Netscape 4.x users may see hangs or crashes when encountering the Lotus iNotes unsupported browser page. If you are a Netscape 4.x user and you encounter these problems, you should open your mail file using the WebMail UI directly through the &ui=webmail switch. This is documented in the topic "Switching to WebMail" in the Lotus iNotes help.
- Lotus iNotes will not work if JavaScript™ is disabled or if session cookies are disabled.

Server requirements

For a complete list of server operating systems and requirements, see "IBM Lotus Domino 8.5 - Detailed system requirements".

Certified proxy servers

- SunOne Portal Server 6.2
- IBM WebSphere® Edge Server 2.0.2 efix 49
- IBM Tivoli® Access Manager V6.0

Adobe® Acrobat

- Adobe Acrobat Reader, Version 4.0, or later to print calendars

Domino 8.5.1 - Detailed system requirements

32-bit Domino Server

Microsoft Windows

- Supported versions
 - Microsoft Windows 2003 Server Standard Edition
 - Microsoft Windows 2003 Server Enterprise Edition, Service Pack 2
 - Microsoft Windows 2003 Server x64 Edition
- Processors
 - Intel Pentium or higher and compatibles (32-bit and 64-bit chips as appropriate), or equivalents

- RAM
 - 512 MB minimum
 - 512 MB, or more recommended per CPU
- Disk space
 - 1.5 GB minimum per partition
- Disk swap space
 - 2 times the physical RAM installed
- Monitors
 - Color monitor required
- Protocols
 - NetBIOS over IP (32-bit processor only; only Microsoft IP is supported)
 - NetBIOS over IPX (32-bit processor only)
 - TCP/IP (includes IPv6)

Linux

- Supported versions
 - Novell SUSE Linux Enterprise Server (SLES) 10 x86 (32 bit)
 - Novell SUSE Linux Enterprise Server (SLES) 10 x86_64 (64 bit)
 - Red Hat Enterprise Linux (RHEL) 5.0 and 5.1 (32 bit)
 - Note:** XGL and SELinux must be disabled.
 - Red Hat Enterprise Linux (RHEL) 5.0 and 5.1 (64 bit)
 - Note:** XGL and SELinux must be disabled.
- Processors
 - Intel Pentium, or higher and compatibles (32-bit and 64-bit chips as appropriate), or equivalents
- RAM
 - 512 MB minimum
 - 512 MB, or more recommended per CPU
- Disk space
 - 1.5 GB minimum
 - 1.5 GB, or more recommended
- Disk swap space
 - 2 times the physical RAM installed recommended
- Monitors
 - Any standard display (local or remote)
- Protocols
 - TCP/IP (includes IPv6)

Sun Solaris

- Supported versions
 - Sun Solaris 10 (64-bit kernel), March 2006 patch cluster, later
 - Note:** The 64-bit kernel must be installed and in use, even though the operating system is 32-bit. The use of the 32-bit kernel is no longer supported. Refer to the operating system vendor documentation for questions on enabling/using the 64-bit kernel. On Solaris, the 64-bit kernel is used by default on supported hardware.

- Processors
 - UltraSPARC III, or later
- RAM
 - 512 MB minimum
 - 512 MB, or more recommended per CPU
- Disk space
 - 1.5 GB minimum
 - 1.5 GB, or more recommended
- Disk swap space
 - 3 times the physical RAM recommended
- Monitors
 - Any standard display (local or remote)
- Protocols
 - TCP/IP (includes IPv6)

IBM AIX®

- Supported versions
 - IBM AIX V5.3 (64-bit kernel), minimum patch level of TL7, 0815 (5300-07-04-0815)
 - IBM AIX V6.1 (64-bit kernel), Service Pack 4, APAR IZ10223, APAR IZ09961, APAR IZ10284, APAR IZ08022

Note: The 64-bit kernel must be installed and in use, even though the operating system is 32-bit. The use of the 32-bit kernel is no longer supported. Refer to the operating system vendor documentation for questions on enabling and using the 64-bit kernel.

- Processors
 - PowerPC®
- RAM
 - 512 MB minimum
 - 512 MB or more recommended per CPU
- Disk space
 - 1.5 GB minimum
 - 1.5 GB, or more recommended
- Disk swap space
 - 2 times the physical RAM recommended
- Monitors
 - Any standard display (local or remote)
- Protocols
 - TCP/IP (includes IPv6)

64-bit Domino Server

Microsoft Windows

- Supported versions
 - Microsoft Windows 2003 Server x64 Edition, Service Pack 2
- Processors

- Intel EMT64, or later and compatibles, or equivalents
- RAM
 - 512 MB minimum
 - 512 MB, or more recommended per CPU
- Disk space
 - 1.5 GB minimum per partition
- Disk swap space
 - 2 times the physical RAM recommended
- Monitors
 - Color monitor required
- Protocols
 - TCP/IP (includes IPv6)

IBM AIX

- Supported versions
 - 64-bit IBM AIX V5.3, TL7 0815 (5300-07-04-0815)
 - 64-bit IBM AIX V6.1, Service Pack 4, APAR IZ10223, APAR IZ09961, APAR IZ10284, APAR IZ08022
- Processors
 - PowerPC
- RAM
 - 512 MB minimum
 - 512 MB, or more recommended per CPU
- Disk space
 - 1.5 GB minimum
 - 1.5 GB, or more recommended
- Disk swap space
 - Same amount as physical RAM required; 2 times physical RAM recommended
- Monitors
 - Any standard display (local or remote)
- Protocols
 - TCP/IP (includes IPv6)

Linux on System z®

- Supported versions
 - Novell SUSE Linux Enterprise Server (SLES) 10 on System z (64 bit)
 - Red Hat Enterprise Linux (RHEL) 5 on System z (64 bit)

Note: XGL and SELinux must be disabled.
- Processors
 - Any that supports your release level of Linux on System z
- RAM
 - 1 GB minimum
 - 2 GB, or more recommended
- Disk space

- 2.5 GB minimum
- 2.5 GB, or more recommended
- Monitors
 - Any standard display (local or remote)
- Protocols
 - TCP/IP (includes IPv6)

128-bit Domino Server

IBM System i®

- Supported versions
 - IBM i 5.4
 - IBM i 6.1

Note: The IBM System i operating system only runs on 64-bit hardware, and has been enabled for 64 bit for a long time. It is a virtual machine architecture which supports both 128-bit and 64-bit pointers. All software products that run on IBM System i (i5/OS®) have 64-bit addressing capabilities. This includes Lotus Domino and all related software products, such as Lotus Sametime, Lotus Quickr, and Lotus Enterprise Integrator.
- Processors
 - IBM System i model 270 or 8xx servers, eServer™ i5 model 520, or later, System i 9405-520 Express models and 9406-520 value models with accelerator processor feature, System i 9407-515, 9406-520, 9406-525 or higher, IBM Power® 520 Express, or higher. For more details on specific models, refer to "System i Performance Capabilities Reference" at <http://publib.boulder.ibm.com/infocenter/systems/scope/i5os/topic/books/sc410607.pdf>
- RAM
 - 512 MB minimum
 - 512 MB, or more recommended per Domino server
- Disk space
 - 2 GB minimum
 - 4, or more drives recommended
- Monitors
 - Any standard display (local or remote)
- Protocols
 - TCP/IP (includes IPv6)

Software requirements

None

The program's specifications and specified operating environment information may be found in documentation accompanying the program, if available, such as a README file, or other information published by IBM, such as an announcement letter. Documentation and other program content may be supplied only in the English language.

Planning information

Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and technical support are provided by the

Software Subscription and Support (also referred to as Software Maintenance) offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software, and technical support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with each program license acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available.

Packaging

IBM Lotus Notes and Domino and Lotus Enterprise Integrator V8.5.1 will be distributed via a media package and electronic software distribution (ESD).

IBM Lotus Notes and Domino primary media is distributed in several specific packages based on license purchase and language preference and include the following:

- Lotus Notes and or Domino product DVDs or electronic image files
- Softcopy product documentation, including README files, which is included on the product DVDs or electronic image files

IBM Lotus Domino secondary media or associated entitlements is distributed separately via a media package and electronic software distribution (ESD), and may include the following based on license purchase:

- DB2® Enterprise Server, Tivoli Directory Integrator, WebSphere Application Server Network Deployment or Lotus Workflow™.

The License Information form numbers are:

- L-GHUS-7M2JHC for Lotus Domino
- L-GHUS-7M2JFS for Lotus Notes

IBM Lotus Enterprise Integrator media is distributed in one media package with the following:

- Lotus Enterprise Integrator product DVD
- Softcopy product documentation, including README files, which is included on the product DVD or electronic image files

The License Information form number is:

- L-GHUS-7PSR88 for Lotus Enterprise Integrator

Security, auditability, and control

The customer is responsible for evaluation, selection, and implementation of security features, administrative procedures, and appropriate controls in application systems and communication facilities.

Ordering information

This product is only available via Passport Advantage. It is not available as shrinkwrap.

Charge metrics definitions

Processor Value Unit (PVU)

Processor Value Unit (PVU) is a unit of measure by which this software product can be licensed. PVU entitlements are based on processor technology (defined within the PVU table* by processor vendor, brand, type and model number). IBM continues to define a processor, for purposes of PVU-based licensing, to be each processor core

on a chip. Each software product has a unique price per PVU. To determine the total cost of deploying an individual software product in a specific hardware environment, you must take the following steps:

1. For each processor core in the hardware environment on which the software product is to be licensed, determine the PVU requirement based on its processor technology per the PVU table*.
2. Add the PVU requirements for all processor cores in the hardware environment.
3. Multiply the software product's price per PVU by the total number of PVUs required as determined in step 2 above.

PVU entitlements are specific to a software product and may not be exchanged, interchanged, or aggregated with PVU entitlements of another software product.

Unless you have deployed eligible sub-capacity products according to the sub-capacity* terms, you must obtain PVU Proof of Entitlements (PoEs) for the maximum number of activated** physical processor cores in the hardware environment made available to or managed by the software product. This is also referred to as full capacity licensing.

(**) Activated processor cores are physical processor cores that are available for use in a server. They include processor cores:

- That are activated (available for use) when the server is shipped by the manufacturer
- That are activated subsequently through activation codes purchased from the server manufacturer by the customer
- Whose capacity can be limited by the customer through Virtualization technologies, Operating System commands and BIOS settings.

(*) For information regarding PVU and sub-capacity licensing, including the latest PVU table, visit

http://www.ibm.com/software/lotus/passportadvantage/pvu_licensing_for_customers.html

Authorized User

Authorized User is the unit of measure by which this program is licensed. An Authorized User is an individual (named or unnamed) within or outside of your enterprise. The program may be installed on one or more computers or servers and accessed by the number of users authorized by the PoE. You must have an entitlement for each Authorized User accessing the program or any program component in any manner directly or indirectly (for example, via a multiplexing program, device, or application server) through any means.

Terms and conditions

The information provided in this announcement letter is for reference and convenience purposes only. The terms and conditions that govern any transaction with IBM are contained in the applicable contract documents such as the IBM International Program License Agreement, IBM International Passport Advantage Agreement, and the IBM Agreement for Acquisition of Software Maintenance.

Licensing

IBM International Program License Agreement including the License Information document and PoE govern your use of the program. PoEs are required for all authorized use.

Part number products only, offered outside of Passport Advantage, where applicable, are license only and do not include Software Maintenance.

This software license includes Software Subscription and Support (also referred to as Software Maintenance).

License Information form numbers

Program name	Program number	Form number
IBM Lotus Domino Server	5724-Z14	L-GHUS-7M2JHC
IBM Lotus Enterprise Integrator	5724-L76	L-GHUS-7PSR88
Lotus Domino Enterprise Client Access License	5724-Z08	L-GHUS-7M2JFS
Lotus Domino Messaging Client Access	5724-Z09	L-GHUS-7M2JFS

License
Lotus Domino Messaging/Collaboration 5724-Z10 L-GHUS-7M2JFS,
Express L-GHUS-7M2JHC

The program's License Information will be available for review on the IBM Software License Agreement Web site

<http://www.ibm.com/software/sla/sladb.nsf>

Limited warranty applies

Yes

Warranty

IBM warrants that when the program is used in the specified operating environment, it will conform to its specifications. The warranty applies only to the unmodified portion of the program. IBM does not warrant uninterrupted or error-free operation of the program or that IBM will correct all program defects. You are responsible for the results obtained from the use of the program.

IBM provides you with access to IBM databases containing information on known program defects, defect corrections, restrictions, and bypasses at no additional charge. Consult the IBM Software Support Handbook for further information at

<http://www.ibm.com/support/handbook>

IBM will maintain this information for at least one year after the original licensee acquires the program (warranty period).

Program technical support

Technical support of a program product will be available for a minimum of five years from the general availability date, as long as your Software Maintenance is in effect. This technical support allows you to obtain assistance (via telephone or electronic means) from IBM for product-specific, task-oriented questions regarding the installation and operation of the program product. Software Maintenance also provides you with access to updates, releases, and versions of the program. You will be notified, via announcement letter, of discontinuance of support with 12 months' notice. If you require additional technical support from IBM, including an extension of support beyond the discontinuance date, contact your IBM representative or IBM Business Partner. This extension may be available for a fee.

Money-back guarantee

If for any reason you are dissatisfied with the program and you are the original licensee, you may obtain a refund of the amount you paid for it, if within 30 days of your invoice date you return the program and its PoE to the party from whom you obtained it. If you downloaded the program, you may contact the party from whom you acquired it for instructions on how to obtain the refund.

For programs acquired under the IBM International Passport Advantage Agreement, this term applies only to your first acquisition of the program.

- For programs acquired under any of IBM's On/Off CoD software offerings, this term does not apply since these offerings apply to programs already acquired and in use by you.

Authorization for use on home/portable computer

The program may be stored on the primary machine and another machine, provided that the program is not in active use on both machines at the same time. You may not copy and use this program on another computer without paying additional license fees.

IBM Lotus Domino Server: No
IBM Lotus Enterprise Integrator: Yes

Lotus Domino Enterprise Client Access License: No
Lotus Domino Messaging Client Access License: No
Lotus Domino Messaging/Collaboration Express: No

Volume orders (IVO)

No

Passport Advantage applies

Yes, and through the Passport Advantage Web site at

<http://www.ibm.com/software/passportadvantage>

This product is only available via Passport Advantage. It is not available as shrinkwrap.

Usage restriction

Yes. For additional information refer to the License Information Document that is available on the IBM Software License Agreement Web site

<http://www.ibm.com/software/sla/sladb.nsf>

Software Subscription and Support (Software Maintenance)

Yes. Software Subscription and Support (also referred to as Software Maintenance) is included with licenses purchased through Passport Advantage and Passport Advantage Express. Product upgrades and technical support are provided by the Software Subscription and Support (also referred to as Software Maintenance) offering as described in the Agreements. Product upgrades provide the latest versions and releases to entitled software and Technical Support provides voice and electronic access to IBM support organizations, worldwide.

IBM includes one year of Software Subscription and Support (also referred to as Software Maintenance) with each program license acquired. The initial period of Software Subscription and Support (also referred to as Software Maintenance) can be extended by the purchase of a renewal option, if available.

While your Software Subscription and Support (also referred to as Software Maintenance) is in effect, IBM provides you assistance for your routine, short duration installation and usage (how-to) questions, and code-related questions. IBM provides assistance via telephone and, if available, electronic access, to your information systems (IS) technical support personnel during the normal business hours (published prime shift hours) of your IBM support center. (This assistance is not available to your end users.) IBM provides Severity 1 assistance 24 hours a day, 7 days a week. For additional details, consult your IBM Software Support Handbook at

<http://www.ibm.com/support/handbook>

Software Subscription and Support (also referred to as Software Maintenance) does not include assistance for the design and development of applications, your use of programs in other than their specified operating environment, or failures caused by products for which IBM is not responsible under the applicable agreements.

For additional information about the International Passport Advantage Agreement and the IBM International Passport Advantage Express Agreement, visit the Passport Advantage Web site at

<http://www.ibm.com/software/passportadvantage>

Other terms

System i Software Maintenance applies

No

Educational allowance available

Not applicable.

On/Off CoD

To be eligible for On/Off CoD pricing, customers must be enabled for temporary capacity on the corresponding hardware, and the required contract - Z125-6907, Amendment for iSeries® and pSeries® Temporary Capacity On Demand - Software - must be signed prior to use.

IBM Electronic Services

IBM has transformed its delivery of hardware and software support services to help you achieve higher system availability. Electronic Services is a Web-enabled solution that offers an exclusive, no-additional-charge enhancement to the service and support available for IBM servers. These services are designed to provide the opportunity for greater system availability with faster problem resolution and preemptive monitoring. Electronic Services comprises two separate, but complementary, elements: Electronic Services news page and Electronic Services Agent.

The Electronic Services news page is a single Internet entry point that replaces the multiple entry points traditionally used to access IBM Internet services and support. The news page enables you to gain easier access to IBM resources for assistance in resolving technical problems.

The Electronic Service Agent™ is no-additional-charge software that resides on your server. It monitors events and transmits system inventory information to IBM on a periodic, client-defined timetable. The Electronic Service Agent automatically reports hardware problems to IBM. Early knowledge about potential problems enables IBM to deliver proactive service that may result in higher system availability and performance. In addition, information collected through the Service Agent is made available to IBM service support representatives when they help answer your questions or diagnose problems. Installation and use of IBM Electronic Service Agent for problem reporting enables IBM to provide better support and service for your IBM server.

Prices

Passport Advantage

For Passport Advantage information and charges, contact your IBM representative or authorized IBM Business Partner, or authorized IBM Business Partner for Software ValueNet®, if applicable. Additional information is also available at

<http://www.ibm.com/software/passportadvantage>

Business Partner information

If you are an IBM Business Partner -- Distributor for Workstation Software acquiring products from IBM, you may link to Passport Advantage Online for resellers where you can obtain Business Partner pricing information. An IBM ID and password are required.
